

Eternal Life Hospice — Combined Legacy + Journal Editorial Map

****Status:**** Analysis-only combined map; no bodies, site files, sitemap, redirects, metadata, publication state, or canvas changed.

****Scope:**** Exactly six named legacy articles plus the 30 pre-publication Journal architecture.

****Evidence rule:**** Search Console page metrics are assigned only where the exact URL is present in the Pages dimension. The validated workbook/report does not list any of these six legacy URLs in the confirmed page observations; therefore metrics are reported as not available/not assigned, rather than inferred from query rows.

Audit guardrails

- Legacy articles remain existing SEO assets. No delete, redirect, merge, rewrite, or publication change is authorized by this map.
- New Journal articles remain pre-publication planning assets and retain the prior architecture actions unless legacy evidence requires adjustment.
- Search Console Queries and Pages are separate dimensions; no query is attributed to a legacy URL without explicit joined evidence.
- Production HTTP status was checked with read-only GET requests on 2026-09-20; all six production URLs returned HTTP 200. Repository HTML remains the source for metadata and link evidence.

A. Complete new 30-article Journal architecture (compact)

3/5

first call; family planning. | Give a Moorpark family a concise preparation checklist while the city page owns local service discovery. | Low-medium with ``/hospice-moorpark-ca`` and #15; high if it keeps generic hospice basics and commercial CTA language. | One link to ``/hospice-moorpark-ca``, #1, ``/hospice-care``, and the county hub when useful. | Refocus |

| 17 | Hospice in Assisted Living and Skilled Nursing Facilities | Professional/facility informational — understand roles, referrals, communication, and care-plan coordination. | ``/refer``. | hospice in assisted living; hospice in skilled nursing; facility referral workflow. | Explain the partnership boundary between facility staff and hospice, with a professional-facing handoff checklist. | Low with #30 if #30 owns referral steps and this owns the setting partnership; medium if both repeat facility referral basics. | ``/refer``, #30 professional referral guide, ``/hospice-care``, and the county hub only for service-area context. | Retitle |

| 18 | What Is the Family Caregiver's Role in Home Hospice? | Caregiver informational — understand responsibilities, boundaries, communication, and support needs. | ``/family-guide`` and ``/hospice-care``. | family caregiver hospice role; home hospice responsibilities; caregiver boundaries. | Define what caregivers do and do not do, how to communicate with the team, and how to identify unsustainable workload. | Medium with #22 and the existing caregiver article; low if it avoids respite mechanics and grief content. | ``/family-guide``, ``/hospice-care``, #22 respite, #20 equipment, #21 on-call, and the existing caregiver support article only if its scope is distinct. | Refocus |

| 19 | How Hospice Manages Comfort Medications | Practical informational — understand medication coordination, safety, and when to call. | ``/hospice-care`` and ``/resources/first-48-hours``. | hospice comfort medications; medication questions at home; hospice medication safety. | Explain the communication and safety process, not specific drugs, dosages, or general hospice eligibility. | Low with #11 and #21 if medication ownership is explicit and emergency guidance remains narrow. | ``/hospice-care``, ``/resources/first-48-hours``, #11, #21, and #20 only when equipment affects medication safety. | Retitle |

| 20 | What Medical Equipment Can Hospice Provide? | Practical informational — understand assessment, ordering, setup, safety, and return of hospice equipment. | ``/hospice-care`` and ``/resources/first-48-hours``. | hospice medical equipment; hospital bed; oxygen/equipment planning; home setup. | Own equipment planning and safety while avoiding coverage guarantees or a generic service overview. | Low with #11 and #19; medium with Medicare content only where coverage is discussed. | ``/hospice-care``, ``/resources/first-48-hours``, #11, #21, and ``/family-guide``. | Retitle |

| 21 | What 24/7 On-Call Hospice Support Means | Urgent informational — know when and how to use hospice after-hours support. | ``/hospice-care`` and ``/resources/first-48-hours``. | hospice after-hours number; 24/7 hospice support; when to call hospice versus emergency services. | Explain the call process, information to have ready, limits of on-call care, and emergency distinction. | Low with #11, #19, and #20 if it avoids their detailed topics and owns after-hours decisions. | ``/hospice-care``, ``/resources/first-48-hours``, #19, #20, and the referral page for professional handoff. | Retitle |

| 22 | What Is Hospice Respite Care? | Caregiver/service informational — understand the purpose, limits, planning, and transition of hospice respite. | ``/hospice-care`` and ``/family-guide``. | hospice respite care; caregiver break; short-term inpatient respite. | Own respite mechanics and caregiver relief; distinguish respite from routine home care, private-duty care, and hospital admission. | Low with #18 if #18 owns the caregiver role and this article owns the respite service. | ``/family-guide``, ``/hospice-care``, #18 caregiver role, ``/resources/medicare-hospice-benefit``, and #30 only for facility coordination when needed. | Keep |

| 23 | How a Hospice Social Worker Supports the Family | Team-role informational — understand social-work support, practical navigation, and family communication. | ``/hospice-care`` and ``/family-guide``. | hospice social worker; hospice family support; care planning and resources. | Explain the social worker's non-medical role without duplicating spiritual care, grief, or caregiver-respite pages. | Low with #18, #24, and #29 if role boundaries are explicit. | ``/hospice-care``, ``/family-guide``, #18, #24, #29, and #17 for facility communication where relevant. | Retitle |

| 24 | Spiritual Care in Hospice: Support Without Pressure | Whole-person informational — understand voluntary, patient-directed spiritual support. | ``/hospice-care``. | hospice spiritual care; chaplain support; faith and values in hospice. | Define non-coercive spiritual care for any faith or no faith, without drifting into wellness-product or clinical-referral claims. | Low with #23 and the music/sound-bath extras; low if complementary content remains clearly separate. | ``/hospice-care``, ``/family-guide``, #23 social worker, and the grief article where emotional support is relevant. | Retitle |

| 25 | What to Do When a Parent Refuses Hospice | Family decision-support informational — respond to refusal while protecting autonomy and keeping communication open. | ``/family-guide`` and #1. | parent refuses hospice; family disagreement; talking about hospice. | Address listening, consent, capacity questions, safety planning, and revisiting goals without conversion pressure. | Low-medium with #2 and #1; low if it does not re-teach evaluation steps. | ``/family-guide``, #1 evaluation, ``/hospice-care``, and #27 physician questions. | Retitle |

| 26 | How to Choose a Hospice Provider | Commercial-investigational informational — compare providers using neutral, verifiable questions. | ``/hospice-care`` and ``/refer`` (not a claim that Eternal is “best”). | choose a hospice; compare hospice providers; hospice provider questions. | Provide a neutral checklist for service area, communication, team roles, coverage questions, and escalation—without unsupported superiority claims. | Medium with local pages and #17/#30; reduced by avoiding a location landing-page format and keeping the checklist provider-neutral. | ``/hospice-care``, ``/refer``, ``/resources/medicare-hospice-benefit``, ``/family-guide``, and the county hub only for local-context questions. | Retitle |

| 27 | Questions to Ask a Doctor About Hospice | Decision-stage checklist — prepare for a clinician conversation before referral/evaluation. | ``/hospice-care`` and #1. | questions for doctor about hospice; hospice appointment checklist; goals-of-care questions. | Own the physician-appointment checklist, distinct from #1's hospice evaluation sequence and #25's family refusal conversation. | Low-medium with #1 and #25 if it stays a question list and does not become another evaluation explainer. | ``/hospice-care``, #1, ``/family-guide``, ``/resources/medicare-hospice-benefit``, and #25 where family disagreement is relevant. | Retitle |

| 28 | Eating and Drinking Changes Near the End of Life | Symptom/caregiver informational — respond safely and compassionately to appetite, thirst, swallowing, and comfort changes. | ``/hospice-care`` and ``/family-guide``. | end-of-life appetite changes; hospice eating and drinking; comfort feeding questions. | Explain comfort-focused observation, mouth care, swallowing questions, and when to call the care team without prescribing treatment. | Low-medium with #2 and condition guides; low if it stays symptom-specific and does not repeat eligibility. | ``/hospice-care``, ``/family-guide``, #21 on-call, #19 medication questions, and #1 evaluation only where appropriate. | Keep |

| 29 | Grief Support Before and After a Loss | Bereavement informational — understand grief before a death and after a loss, and identify support. | ``/family-guide`` and the hospice bereavement/service pathway. | anticipatory grief; hospice bereavement support; grief before and after death. | Own the before/after grief distinction, practical support, and boundaries; do not compete with the caregiver or refusal articles. | Low-medium with the caregiver/children extras; low if grief stages and bereavement support remain central. | ``/family-guide``, ``/hospice-care``, #23 social worker, #24 spiritual care, and the children's communication article where relevant. | Retitle |

| 30 | How Physicians and Facilities Refer a Patient to Hospice | Professional/referral informational — understand the provider/facility referral handoff. | ``/refer``. | hospice referral process; physician referral; facility referral; hospice intake handoff. | Own professional workflow: consent, records, contacts, setting, urgency, and handoff responsibilities. It should not repeat family-facing evaluation education. | Low with #1/#12 if professional language and workflow remain primary; medium with #17 if facility-specific partnership detail is duplicated. | ``/refer``, ``/referral-card``, #17 facility partnership, ``/hospice-care``, and the county hub only for service-area verification. | Refocus |
