

BRAND GUIDELINES

Identity · Voice · Visual System · Applications

A distinct sister identity

Westlake Village Hospice carries its own local presence while sharing Eternal Life Hospice's standard of care.

WESTLAKE VILLAGE HOSPICE

Local familiarity with an elevated standard of care

The brand should feel established in Westlake Village and connected to a larger culture of clinical confidence and guided presence.

Relationship principles

- 01 Distinct name** Use Westlake Village Hospice as the public-facing identity.
- 02 Shared standard** Align care language and operational expectations with the sister agency.
- 03 Clear attribution** Describe the sister relationship only when context makes it useful.

Westlake-specific brand architecture

LOCAL CLARITY

Westlake Village Hospice leads with its local name, a direct response and a clear explanation of what happens next.

Four-pillar framework

Do not use Clinical Confidence, Guided Presence, Whole-Person Comfort or Compliance-Led Care.

Agency distinction

The four pillars belong exclusively to Eternal Life Hospice and must not appear in Westlake materials.

Westlake message

Use the approved Westlake message hierarchy, voice and local positioning in this guide.

Shared relationship

The sister-agency relationship may be stated when useful without importing Eternal Life Hospice's pillar system.

Primary audiences

The identity must serve both families seeking reassurance and professionals evaluating clinical reliability.

PATIENTS & FAMILIES

Need clarity, responsiveness and a sense of safety during an unfamiliar time.

Lead with plain language and direct access to help.

REFERRAL PARTNERS

Need timely communication, responsible admissions and dependable follow-through.

Lead with capability and coordination.

COMMUNITY PARTNERS

Need confidence that the agency will represent their trust well.

Lead with local presence and education.

How the brand should feel

STEADY	Measured and reassuring	Avoid urgency that creates fear.
REFINED	Simple and considered	Avoid decorative excess.
HUMAN	Warm and direct	Avoid sentimental clichés.
CAPABLE	Clinically grounded	Avoid cold institutional language.
The balance	Hospice expertise expressed with grace and restraint	

Clear language with a steady tone

SAY

Our team is available 24/7 when questions or changes arise.

AVOID

We are always here for every step of your journey.

SAY

Same-day admission may be available when clinically appropriate.

AVOID

We guarantee immediate admission.

SAY

We help families understand what to expect and who to call.

AVOID

We take care of everything so you do not have to worry.

Message hierarchy

PRIMARY MESSAGE

Trusted hospice care with calm guidance for patients and families.

SERVICE DESCRIPTION

Integrative whole-person care supported by responsive clinical teams.

ACCESS MESSAGE

Available 24/7. Same-day admissions when clinically appropriate.

LOCAL MESSAGE

Serving Westlake Village and surrounding communities across Ventura and Los Angeles counties.

These lines establish direction. Final public claims must match current licensing, coverage and admission capabilities.

Primary wordmark

Use the complete horizontal wordmark whenever space permits.

APPROVED REFERENCE

The flowing two-ribbon W leads directly into the serif name. HOSPICE remains centered below with generous tracking.

Wordmark anatomy

1

Ribbon W

Carries movement and continuity through Deep Clinical Navy and Aquamarine.

2

Name

Classical serif letterforms create authority without institutional weight.

3

Descriptor

HOSPICE identifies the service clearly and balances the wordmark.

Do not separate or rearrange these elements unless an approved secondary lockup exists.

Clear space and minimum size

CLEAR SPACE

Maintain space equal to the cap height of HOSPICE on all four sides.

MINIMUM SIZE

Print 1.75 in wide

Digital 220 px wide

Below minimum size use a separately approved small-format mark. Do not improvise one.

Approved logo backgrounds

Incorrect logo use

✗ **Do not stretch or compress**

✗ **Do not change individual colors**

✗ **Do not add shadows or effects**

✗ **Do not place over busy images**

✗ **Do not reset the typography**

✗ **Do not use retired W concepts**

Retired explorations include the detached floating V and woven heart-W constructions developed before selection of the integrated wordmark.

Primary palette

Deep Clinical Navy

#102E4A

Trust · steadiness · clinical clarity

Aquamarine

#5CC9C0

Defining crystal reference

Tidal Blue

#236B80

Depth · navigation · reassurance

Mist

#E8F4F2

Calm surfaces · breathing room

Warm Mineral

#F4EFE7

Human warmth without sentimentality

Signal Coral

#D87868

Careful emphasis and action

Color roles and balance

55%	Warm Mineral + white	Primary backgrounds and open space
25%	Deep Clinical Navy	Typography, navigation and high-trust moments
15%	Aquamarine + Tidal Blue	Brand recognition and supporting emphasis
5%	Signal Coral	Urgent or human emphasis used sparingly

ACCESSIBILITY

Use Deep Clinical Navy for body text. Do not set long text in Aquamarine, Mist or Signal Coral.

A classical voice with modern clarity

Aa

CANELA REGULAR

Use for major headlines and selected editorial moments. Keep sentence case and allow generous space.

Aa

AVENIR NEXT

Use Regular for body copy and Medium for navigation, forms, buttons and eyebrows.

Westlake Village

**HOSPICE CARE
FOR FAMILIES**

Clear information helps families understand the care available and how to begin.

PRODUCTION NOTE

License and serve the approved webfont files. Keep the wordmark as master artwork rather than live text.

Photography direction

Natural settings and quiet human presence should support the message without staging emotion.

LOOK FOR

- + **Natural light and real environments**
- + Respectful distance and unforced expressions
- + Coastal and residential context
- + Open compositions with room for copy
- + Blue and mineral tones

AVOID

Close-up hands · staged grief · hospital clichés · repeated people or locations

Quiet structure and open space

Warm Mineral fields

Use generous margins and uninterrupted areas of light color.

Fine rules

Use thin lines to organize information without turning layouts into boxed grids.

Coral accents

Reserve coral for a small callout, deadline or essential action.

Consistent use across every touchpoint

WEBSITE

Wordmark in header. Navy text on Warm Mineral or white. Aquamarine for restrained interaction cues.

REFERRAL MATERIALS

Lead with clarity. Keep phone and referral instructions prominent. Avoid dense clinical copy.

SOCIAL & GBP

Use short educational messages. Keep graphics spacious. Include phone and domain when action matters.

PRINT & SIGNAGE

Use vector artwork. Confirm minimum size, clear space and color reproduction before release.

RELEASE CHECK

Approved master artwork · correct colors · clear space · readable size · current contact information · regulatory review where needed

Website type roles

A fixed hierarchy protects readability while preserving the editorial character of Canela.

ROLE	TYPEFACE	DESKTOP	MOBILE	LINE HEIGHT
Display heading	Canela Regular	48–72 px	40–48 px	1.00–1.08
Section heading	Canela Regular	36–48 px	32–40 px	1.08–1.15
Eyebrow	Avenir Next Medium	16 px	15–16 px	1.35–1.45
Lead copy	Avenir Next Regular	20–22 px	18–20 px	1.45–1.60
Body copy	Avenir Next Regular	18 px	17–18 px	1.50–1.65
Navigation + buttons	Avenir Next Medium	16–17 px	16–17 px	1.25–1.40

Hard rule Public-facing website text never drops below 15 px. Body copy stays at 17 px or larger on mobile.

Readability floors

Whitespace must come from layout and copy editing rather than smaller text.

15 px	Absolute floor	Eyebrows and short metadata only. Never use for paragraphs, navigation or buttons.
17 px	Mobile body	Default minimum for supporting copy, cards, forms and instructional text.
18 px	Desktop body	Default for paragraphs and service explanations.
4.5:1	Text contrast	Required for normal text. Test text against its actual rendered background.
44 px	Preferred target	Buttons and primary controls should provide at least a 44 × 44 px active area.

No decorative label may become unreadable to preserve a composition.

Eyebrows and supporting copy

Small text should still feel deliberate, calm and immediately legible.

HOSPICE CARE IN WESTLAKE VILLAGE

Care shaped around what matters most

Clear guidance and attentive clinical care help patients and families understand what to expect and who to call.

[Speak With Our Care Team](#)

EYEBROW RULES

15 px minimum on mobile
16 px preferred on desktop
Medium weight
0.08–0.12em tracking
One or two lines maximum

SUPPORTING COPY

17 px minimum on mobile
18 px minimum on desktop
1.5–1.65 line height
45–70 characters per line

Responsive type tokens

Production CSS

```
:root {
  --font-display: "Canela", Georgia, serif;
  --font-sans: "Avenir Next", Avenir, sans-serif;
  --text-eyebrow: clamp(0.9375rem, 0.25vw + 0.88rem, 1rem);
  --text-body: clamp(1.0625rem, 0.25vw + 1rem, 1.125rem);
  --text-lead: clamp(1.125rem, 0.55vw + 1rem, 1.375rem);
  --text-h1: clamp(2.5rem, 4.2vw, 4.5rem);
}
.eyebrow { line-height: 1.4; letter-spacing: 0.1em; }
p { line-height: 1.6; max-width: 68ch; }
```

NON-NEGOTIABLE

Use rem or clamp() for scalable text.

Allow browser zoom to 200%.

Never disable text resizing.

Do not place essential copy inside images.

Load font-display: swap and test fallbacks.

The approved wordmark remains an image asset with meaningful alternative text. All other copy remains live HTML text.

Typography release check

Review real pages at common widths before every public release.

TEST CONDITIONS

- ☐ 375 px mobile viewport
- ☐ 768 px tablet viewport
- ☐ 1280 px desktop viewport
- ☐ 200% browser zoom
- ☐ Default and fallback fonts

PASS CRITERIA

- ☐ Eyebrows remain 15 px or larger
- ☐ Body copy remains 17 px or larger on mobile
- ☐ No clipped text at increased spacing
- ☐ Contrast passes on every background
- ☐ Buttons provide a 44 px preferred target

If copy does not fit: shorten the copy, widen the text area or change the layout. Never solve fit by dropping below the minimum size.

One source for every public expression

This guide governs website, print, referral materials, social channels, signage and staff communication.

CURRENT STANDARD

Final Brand Guide V4

Earlier concept boards and retired W explorations are not production references.

Review ownership

- 01

Twice yearly

Review the guide every six months and after material brand changes.
- 02

Status changes

Recheck credentials, service area and contact details before release.
- 03

One master

Use approved artwork and shared production tokens from one controlled source.

Small-format logo system

The horizontal wordmark should never be cropped to force it into a square or circular space.

Production requirement

Create these assets from the final vector master. The W shown here is a placement diagram rather than approved artwork.

Extended production palette

These additional colors support accessible text, warm structure and controlled depth.

Deep Coral #A94B33	Secondary Ink #3A5A73	Warm Rule #DCD5C8	Navy Deep #0A1D30
4.90:1 on Warm Mineral	6.35:1 on Warm Mineral	Structural only	Dark ground
Use when coral carries text	Supporting copy and labels	Dividers and borders	Depth gradient endpoint

ROLE	APPROVED USE	RESTRICTION
Deep Coral	Text and restrained human emphasis	Never substitute Signal Coral for text
Secondary Ink	Supporting copy, captions and table labels	Use only on light backgrounds
Warm Rule	Dividers, borders and quiet structure	Never use for text
Navy Deep	Dark sections and Depth gradients	Use White or Aquamarine text

Approved text by background

Each ratio measures the foreground color against the exact solid background shown.

TEXT COLOR	MINERAL	WHITE	MIST	NAVY	TIDAL	NAVY DEEP
Deep Clinical Navy	12.14 ✓	13.89 ✓	12.34 ✓	1.00 ×	2.31 ×	1.23 ×
Secondary Ink	6.35 ✓	7.27 ✓	6.45 ✓	1.91 ×	1.21 ×	2.35 ×
Tidal Blue	5.26 ✓	6.02 ✓	5.35 ✓	2.31 ×	1.00 ×	2.83 ×
Deep Coral	4.90 ✓	5.61 ✓	4.99 ✓	2.47 ×	1.07 ×	3.04 ×
Signal Coral	2.70 ×	3.09 ×	2.74 ×	4.50 ✓	1.95 ×	5.53 ✓
Aquamarine	1.74 ×	1.99 ×	1.76 ×	6.99 ✓	3.03 ×	8.58 ✓
White	1.14 ×	1.00 ×	1.13 ×	13.89 ✓	6.02 ✓	17.05 ✓

✓ approved for normal text at 4.5:1 or higher × graphic, fill or large-display use only

Approved gradient system

The wordmark moves from Deep Clinical Navy toward Aquamarine. Supporting gradients repeat that relationship without adding new color stories.

TIDEWATER · 135°

Navy 0% · Tidal 55% · Aquamarine 100%

SHORELINE · 160°

Warm Mineral 0% · Mist 65% · Pale Aqua 100%

DEPTH · 135°

Navy Deep 0% · Navy 60% · Tidal 100%

RULES

One gradient per composition
Linear gradients only
Keep body copy off gradients
Never gradate the logo
Never use a coral gradient
Test contrast across the full text area

Use only these stops and angles.
Aquamarine may shift in CMYK so proof the first print run.

EDGE · 90°

Final production gate

No public material leaves review with missing facts, provisional artwork or unreadable type.

ARTWORK

Approved vector wordmark or approved small-format asset

TYPE

Canela and Avenir Next loaded with tested fallbacks

READABILITY

15 px absolute floor and 17 px mobile body minimum

COLOR

Contrast checked against the actual rendered background

FACTS

Current phone, domain, address, credentials and service area

RESPONSIVE

375, 768 and 1280 px widths plus 200% browser zoom

Operational and regulatory claims require verification by Westlake Village Hospice before publication.
