WHO WE ARE

An independent hospice, built to be the partner hospitals can trust

Eternal Life Hospice, Inc. is an independent, physician-led, Medicare-certified hospice serving families across Ventura and Los Angeles County. We pair the regulatory discipline a referral source needs with the human, integrative care patients deserve — and the rigor always comes first, because that is what protects you and your patient.

INDEPENDENT

Not a chain

Locally founded and led, so decisions are made with your patient — not a corporate quota — in mind.

FOUNDER-LED

Lived experience

Founded by Aleksandra Dubina, a certified hospice administrator who leads with a rare, personal understanding of care.

COVERAGE

Ventura & LA County

Care wherever home is — private residence, assisted living, board & care, or skilled nursing facility.

WHY THE RIGHT HOSPICE PARTNER MATTERS

Every discharge is your reputation, handed to someone else

Discharge planners, case managers and physicians carry real responsibility for every hand-off. The wrong hospice partner creates delays, documentation gaps, avoidable readmissions and families who lose confidence in *your* institution. The right one makes you look good.

- ∞ **Speed protects throughput.** Patients waiting on a slow hospice occupy beds and stall discharge planning.
- ∞ **Clean documentation protects you.** Eligibility, certification and face-to-face errors create compliance exposure for the referring source.
- ∞ **Comfort protects your reputation.** How a patient's final chapter goes is what the family remembers about the hospital that referred them.

REFER WITH CONFIDENCE

Credentials you can stand behind

Every referral to Eternal Life Hospice is backed by current, verifiable credentials — the same standards your surveyors and your patients expect.

CMS

Medicare-Certified

Delivered to federal standards — with no deductibles or copays for eligible patients under Medicare Part A & Medi-Cal.

STATE OVERSIGHT

CDPH-Licensed

Licensed by the California Department of Public Health and accountable to state inspection and reporting.

NATIONAL QUALITY

ACHC-Accredited

An independent, nationally recognized seal of clinical and operational quality.

All credentials are current and independently verifiable with CMS, CDPH and ACHC.

THE COMPLIANCE BURDEN WE LIFT OFF YOU

The paperwork that protects you is our responsibility too

∞ **Eligibility, confirmed correctly.** Our clinical team verifies appropriateness *with you* before admission.

∞ **Certification of Terminal Illness.** Accurate, timely certification and recertification, handled.

∞ **Face-to-Face encounters.** Completed within regulatory windows so eligibility stays compliant.

∞ **Records back to you.** Timely notes flow back — HIPAA-secure — keeping your chart audit-ready.

We confirm appropriateness before admission — reducing the risk of an inappropriate or delayed admission for everyone involved.
