

The Eternal Care Brief — Issue 01 Campaign Recap

Prepared for Aleksandra Dubina · Campaign sent July 14, 2026 to Master Verified + SYMPLR Network lists

1 · How the campaign performed

Benchmark check: Healthcare industry emails average roughly 35–40% opens, ~2% clicks, under 2% bounces, and under 0.1% complaints. Our **open rate (54.9%) is well above industry norms** — the subject line and sender name worked. But the **bounce rate (7.3%) is more than 3× the acceptable level**, and 2 complaints on 682 Master-Verified deliveries (0.29%) is above the 0.1% line that mailbox providers watch. Raw click counts (327 “clickers”) are heavily inflated by corporate email security scanners and are not a reliable measure — genuine human engagement was concentrated in about 10 people.

What went well

- Excellent open rate (54.9%) — far above the ~37% healthcare average.
- Deep, genuine engagement from a cluster at PIH Health: 8 named leaders each explored 10–22 sections of the issue.
- Zero complaints from the SYMPLR Network list; unsubscribes stayed low overall (0.6%).
- The email rendered and tracked correctly; the Care Brief pages held readers who clicked through.

Fix before the next send

- **Clean the bounces:** remove all 63 hard-bounced addresses permanently and re-verify the 73 soft bounces before Issue 02. Target: under 2%.
- **Protect sender reputation:** both complaints came from the Master Verified list — review how those contacts were sourced, and make the unsubscribe link more prominent so unhappy readers unsubscribe instead of marking spam.
- **Fix click measurement:** add bot-filtering (ignore clicks within seconds of delivery from data-center addresses) so future reports show real reader behavior.
- **Space the sends:** 166 deliveries to the SYMPLR list were deferred — send in smaller batches to avoid throttling by hospital mail servers.

2 · PIH Health — why they matter

PIH Health is a nonprofit regional health system serving the San Gabriel Valley, Whittier and southeast Los Angeles County: three hospitals — **PIH Health Whittier** (flagship), **PIH Health Downey**, and **PIH Health Good Samaritan** (downtown LA) — plus a large physician group, home health, and hospice-adjacent services. All three hospitals sit inside our approved LA County

coverage area and discharge exactly the patients who need hospice at home. Eight PIH leaders — spanning emergency & critical care, surgical services, infection prevention, quality, clinical education, revenue cycle, HR, and support services — were the deepest genuine readers of Issue 01. That breadth suggests the issue circulated internally, which is the strongest single signal from this campaign.

3 • The follow-up letters — who gets what

One personal note per person from Aleksandra, sent individually, Family Guide PDF attached. Nothing sends until approved.

Recipient	Role & organization	Clicks	Letter angle

Melissa Perez	Quality Reporting System Administrator — PIH Health	21	Quality data tells the real story; how families can judge delivery
Brent Melton	VP Support Services — PIH Health	18	Supporting families at discharge; agency-neutral guide for his teams
Jeanette Wehrberg	Clinical Education, HR — PIH Health	18	The guide as a teaching resource for the hardest staff conversation
Noel Coppinger	VP Revenue Cycle & Managed Care — PIH Health	17	Clear benefit explanation smooths care and coverage from day one
Scott Bremer	Director, Compensation, Benefits & HRIS — PIH Health	17	A resource for employees facing end-of-life decisions at home
Jeanette Abundis	Sr. Director, Emergency & Critical Care — PIH Whittier & Downey	16	Crisis-speed clarity for ED/ICU families; same-day admission
Stephanie Jones	Director of Surgical Services — PIH Health Downey	15	The transition families are least prepared for; agency-neutral help
Blair Chambers	RN — Primrose Post-Acute	10	Helping residents' families choose well, whichever hospice they pick
Administrator	Catered Manor Care Center, Long Beach	4	(Optional) Supporting an administrator guiding residents' families

4 • Next steps

- Approve (or edit) the 10 personal follow-up letters — full drafts are in the review file; nothing sends without sign-off.
- Send each letter individually from aleksandra@eternallifehospice.com with the Family Guide attached; keep a send log.
- Before Issue 02: purge hard bounces, re-verify soft bounces, review the Master Verified list sourcing, and add bot-filtered click reporting.

Appendix • Everyone with 3+ clicks, by organization

239 external contacts clicked 3+ times. Numbers in parentheses are click counts. Most of this activity is automated security scanning, not human reading — treat as directional only. First names shown where the address reveals them.
