

 eternallifehospice.com

Scanned on August 06, 2026

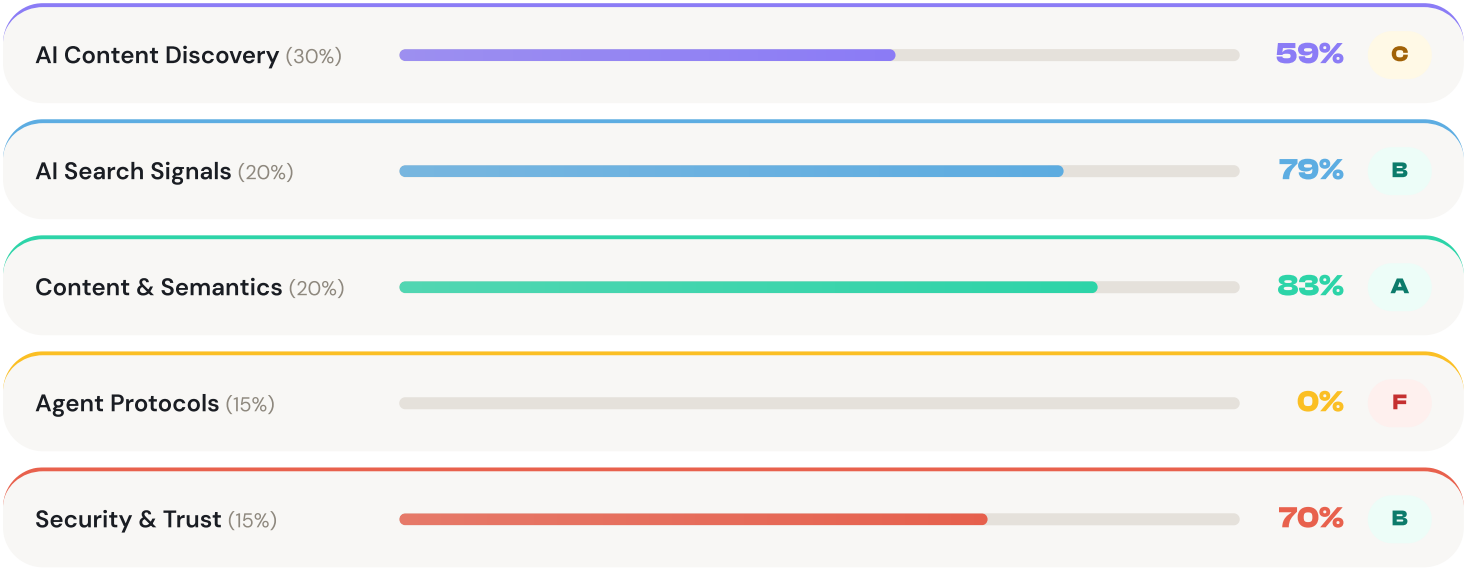

This report evaluates **eternallifehospice.com**'s readiness for AI agents across 5 categories: content discovery, structured data, semantics, agent protocols, and security.

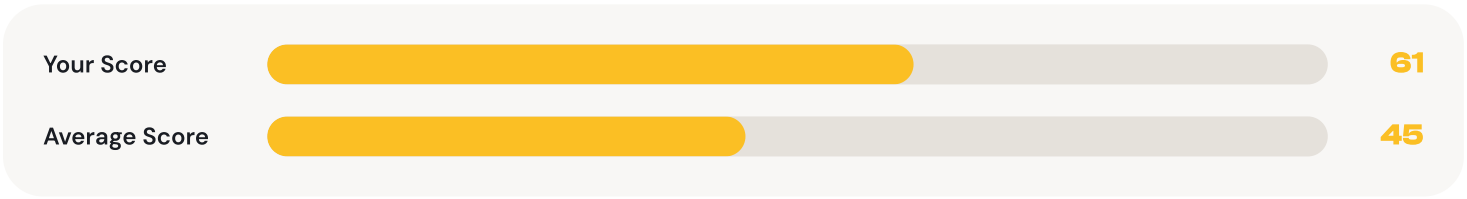

The overall score of **61/100 (C)** reflects how well the site can be understood and interacted with by AI-powered tools and agents.

CATEGORY BREAKDOWN

5 categories, weighted by importance

HOW YOU COMPARE

DETAILED RESULTS

All checkpoints across 5 categories

AI CONTENT DISCOVERY 30% weight			95/160
CHECKPOINT	SCORE	DETAILS	
✓ robots.txt present	15/15	Valid robots.txt found at https://eternallifehospice.com/robots.txt.	
✗ Content Signals (robots.txt)	0/10	No Content-Signal directive found in robots.txt. AI crawlers cannot read your usage preferences.	
✗ AGENTS.md agent guide	0/10	No valid AGENTS.md found at /AGENTS.md.	
✗ Agent content contracts	0/10	Missing required agent content contract(s): pricing.md. Found: none.	
✓ AI crawler directives	20/20	Wildcard Allow: / in robots.txt permits all crawlers including AI agents.	
✓ XML Sitemap	15/15	Valid XML sitemap found at https://eternallifehospice.com/sitemap.xml.	
✓ llms.txt	15/15	Valid llms.txt found at https://eternallifehospice.com/llms.txt.	
✓ Meta robots / X-Robots-Tag	15/15	No restrictive meta robots or X-Robots-Tag directives found.	
✗ Content freshness signals	0/10	No content freshness signals found. AI systems cannot determine when this content was last updated.	
✗ Content negotiation (text/markdown)	0/15	Server returned HTML (content-type: text/html; charset=UTF-8) when Accept: text/markdown was requested. No content ne...	
✓ HTTP bot accessibility	15/15	Page returned HTTP 200 – accessible to bots.	
✗ Link response headers	0/10	No Link response header found on the root page. Agents must parse HTML to discover related resources.	

AI SEARCH SIGNALS 20% weight			75/95
CHECKPOINT	SCORE	DETAILS	
✓ JSON-LD present	20/20	Found 4 valid JSON-LD block(s) with schema.org @context.	
✓ Organization / WebSite schema	15/15	Found WebSite with required properties (name, url).	
✓ High-value schema types	20/20	Found high-value schema types with required properties: LocalBusiness, FAQPage.	
✗ Entity linking (@id)	0/10	No JSON-LD entities use @id for entity linking.	
✓ Schema validation	10/10	All JSON-LD blocks pass structural validation. No issues detected.	

CHECKPOINT	SCORE	DETAILS
✓ FAQPage schema	10/10	FAQPage schema found with 7 valid Question/Answer pair(s).
✗ Author attribution	0/10	No author attribution found. Agents and search engines cannot tell who stands behind this content or link it to a kno...

● **CONTENT & SEMANTICS**

20% weight

141/170

CHECKPOINT	SCORE	DETAILS
✓ Server-side rendered content	20/20	Body contains 28989 characters of visible text (server-side rendered).
✗ Form field autocomplete	0/10	1/36 applicable form inputs have autocomplete attributes (35 missing).
✓ Keyboard navigability	5/5	205 interactive elements with proper keyboard accessibility.
✓ Document title	10/10	Descriptive page title found: "Hospice Care Ventura & Los Angeles County Eternal Life Hospice" (68 chars).
🕒 Button accessible names	4/5	54/63 buttons have accessible names (9 missing).
🕒 aria-hidden misuse	3/10	2 focusable element(s) found inside aria-hidden="true" containers. These elements are invisible in the accessibility ...
✓ Dynamic widget state	10/10	Detected 1 dynamic widget(s), 25 ARIA state attribute(s), and 1 live region(s).
🕒 Heading hierarchy	15/20	Good hierarchy but some headings have empty text content.
✓ Semantic HTML elements	20/20	Found 5/5 semantic elements: article/section, header, nav, main, footer.
✓ Accessible landmarks & ARIA	10/10	5 landmark regions (banner, contentinfo, main, navigation, region) with ARIA enhancements (aria-label, aria-live, ari...
✓ Image alt text	15/15	All 30 images have alt attributes.
✓ Language attribute	5/5	Valid language attribute found: lang="en".
✓ Descriptive link texts	10/10	All 50 sampled links have descriptive text.
🕒 Question-based headings	5/10	1/14 H2 headings use question format ("What families can count on."). Adding more question-based H2s would improve AI...
🕒 Form label coverage	9/10	44/49 form inputs have associated labels (5 missing).

● **AGENT PROTOCOLS**

15% weight

0/140

CHECKPOINT	SCORE	DETAILS
✗ WebMCP Declarative API	0/25	No WebMCP signals found.
✗ API Catalog (RFC 9727)	0/10	No API Catalog found at /.well-known/api-catalog.
✗ Agent Skills index	0/10	No Agent Skills index found at /.well-known/agent-skills/index.json or /.well-known/skills/index.json.

CHECKPOINT	SCORE	DETAILS
 WebMCP manifest	0/10	No WebMCP manifest found at /.well-known/webmcp or /.well-known/webmcp.json.
 A2A Agent Card	0/25	No A2A Agent Card found at /.well-known/agent-card.json or /.well-known/agent.json.
 MCP Discovery	0/10	No MCP discovery document found at /.well-known/mcp.json, /.well-known/mcp/server-card.json, or /.well-known/mcp/serv...
 OpenAPI / API documentation	0/20	No OpenAPI or Swagger documentation found.
 agents.json	0/10	No agents.json found at /.well-known/agents.json or /agents.json.
 Interactive Surface Coverage	0/20	0/9 interactive surfaces covered by WebMCP tool annotations (0%). Forms: 0/6, Search: 0/0, Actions: 0/3, Filters: 0/0.

● **SECURITY & TRUST**

15% weight

81/115

CHECKPOINT	SCORE	DETAILS
 HTTPS	10/10	Site is served over HTTPS with a valid SSL certificate.
 Auto-submit Risk Assessment	10/10	No forms with toolautosubmit/tool-auto-submit found. Safe by default.
 OAuth Discovery	0/10	No OAuth/OIDC discovery document found at /.well-known/oauth-authorization-server or /.well-known/openid-configuration.
 OAuth Protected Resource	0/10	No OAuth Protected Resource Metadata found at /.well-known/oauth-protected-resource and no WWW-Authenticate header on...
 Agent Auth Readiness	0/10	Agent auth readiness issues: missing PKCE S256 support, missing scoped permissions metadata, missing protected-resour...
 HSTS header	16/20	HSTS active with max-age=31536000. If you serve content on subdomains, consider adding includeSubDomains.
 Content-Security-Policy	15/15	Content-Security-Policy header is set with meaningful directives.
 X-Content-Type-Options	5/5	X-Content-Type-Options is set to 'nosniff'.
 Frame protection	5/5	Both X-Frame-Options (SAMEORIGIN) and CSP frame-ancestors are set.
 CORS configuration	10/10	No Access-Control-Allow-Origin header detected. The browser's same-origin policy is enforced by default - this is the...
 Referrer-Policy	10/10	Referrer-Policy is set to 'strict-origin-when-cross-origin'.

TOP RECOMMENDATIONS

Highest impact improvements

- 1

WebMCP Declarative API

Agent Protocols

+25 pts

Implement WebMCP to let AI agents interact with your site. Declarative: add tool-name and tool-description attributes to <form> elements. Imperative: use navigator.modelContext.provideContext() to register tools.
- 2

A2A Agent Card

Agent Protocols

+25 pts

Create an A2A Agent Card at /well-known/agent-card.json with required fields: name, description, url, version, capabilities, supportedInterfaces.
- 3

OpenAPI / API documentation

Agent Protocols

+20 pts

Create an OpenAPI 3.x specification and serve it at /openapi.json or /well-known/openapi to enable AI agents to discover and use your API.
- 4

Interactive Surface Coverage

Agent Protocols

+20 pts

Add tool-name and tool-description attributes to uncovered forms and interactive elements to increase agent coverage.
- 5

Content negotiation (text/markdown)

AI Content Discovery

+15 pts

Serve Markdown when AI agents request it via `Accept: text/markdown`. Add a `Vary: Accept` header so CDN caches serve format-appropriate responses.
- 6

Agent content contracts

AI Content Discovery

+10 pts

Add pricing.md at the site root with concise markdown that explains auth, pricing, limits, and support paths for agents.
- 7

Content freshness signals

AI Content Discovery

+10 pts

Add content date signals so AI systems can assess freshness. Use dateModified in JSON-LD, <meta property="article:modified_time">, or at minimum ensure your server sends a Last-Modified header.
- 8

Link response headers

AI Content Discovery

+10 pts

Add an RFC 8288 Link response header advertising your OpenAPI document, API catalog, and sitemap so agents can discover them at request time.
- 9

Content Signals (robots.txt)

AI Content Discovery

+10 pts

Add a `Content-Signal:` line to robots.txt declaring your AI training, search, and ai-input preferences.
- 10

AGENTS.md agent guide

AI Content Discovery

+10 pts

Add an /AGENTS.md guide describing what your site offers agents and how to connect (MCP, API, tools, auth).
